- RE: 1. T&P Stock Buyout Agreement  
2. Proposed building project

1. I am not going to sign the T&P Stock Buyout at this time because I have some concerns relating to the financial situation of Training & Publications.

As a Director of and Secretary-Treasurer of T&P, I would like to see all the financial data for T&P, including tax returns, cancelled checks, cash disbursement sheets, cash receipts sheets and any financial statements from the last two years as soon as possible.

2. I am concerned about the financing presentation for the new building project, especially as it regards the participation or involvement of Sports Performance Volleyball. As a Director of Sports Performance and the Secretary-Treasurer, I would like to see all the financial records of Sports Performance, including audit reports, tax returns, cash receipts sheets, cash disbursement sheets, cancelled checks and any other financial data from the last two years as soon as possible.
